Subject: RE: Pillon site visit

If anyone is overly eager it would be me! Sorry, if I jumped the gun on setting up a higher level meeting.

I have reached out to Pillon (via his new attorney) and expect that a visit on the 27th will work. I will let you know once he confirms.

Thanks,

Scott

Hey, Tom. I probably wasn't clear to Scott Marlow.

I sent him an email today to see if it was possible to get access from Mr. Pillon for a potential site visit next week or the one thereafter. I wasn't sure if Scott was in or how difficult it might be to contact Mr. Pillon or to get him to consent for access. Depending on his answer, I intended to contact you and others to find the most convenient time. Sorry for the confusion.

I still want to do a site walk with my contractors ASAP so that they may get a better grasp of our potential scope of work for scheduling and cost estimation purposes. I also would still like to meet with all parties, either on site or not, and I would like Wally, as my supervisor and removal program manager, to be able to attend. As Wally mentioned, there will be other opportunities to visit the site and it may be more convenient for all involved after we've had a chance to scope the project. I will let you know what Scott thinks when I hear from him and I will let you know and weigh in on any potential site visits.

If you have questions, please call.

Hi Wally,

Ok, sounds good. I am working on attendance with Spill Response and Toxic Cleanup Program staff for next Thursday at the site. I will coordinate with Jeff and Scott Marlow.

In the meantime, I'll set up a call with Christie and you, as promised. Thanks for your and Jeff's efforts getting things rolling.

My cell is (b) (6)

Thank you,
Tom

Hi Tom,

Actually, Jeff Fowlow is very eager to get going and may have jumped the gun here. I'm still in favor of the 3 of us chatting. If you have technical staff who would be in charge of operations or tactics when it comes to addressing the issues at the site, those are the folks who should participate in a site walk. Jeff wants to start assessing and conceptualizing what approach to take at the site for removal.

I am in Boise on the 26th and won't be able to join though I would like to see the site myself. And you and Christie would be most welcome to go anytime Jeff arranges a visit, and there will be more opportunities aside from the 26th.

Let me know your thoughts.
Wally

Hi Wally,

It was good to talk to you yesterday. It sounds like a meeting is being planned on site next Thursday. Let me know if you would still like a phone call with Christie True, or if we should start with the in-person next week.

Thank you,
Tom

Subject: Pillon site visit

Mr. Buroker and Ms. True:

I have received a request from Jeff Fowlow with EPA to get access for his team to tour the Pillon property next week (probably on the 26th). Do you think it would be a good idea for all of us to meet at the site in the afternoon (after the EPA contractors have completed their measurements, etc.) to introduce ourselves and have an on-site discussion as to clean-up steps, resource allocation and project scoping?

I think that Wally Moon (Jeff's supervisor) will be on site. I don't know if you guys wish to or would be able to attend, but if each party had some representation it would probably help keep things moving in the proper direction.

Please let me know you thoughts.
